

# RODRIGO PÉREZ

## FULL STACK DEVELOPER

### ABOUT

I'm a Full-Stack Developer, from Buenos Aires, Argentina. I'm always ready to face challenges and to improve or acquire new skills. I have good individual and group performance.

### EXPERIENCE

11/2022

#### Stämm Biotech

##### FrontEnd Developer

Responsibilities:

- Development of web applications with NextJs.
- Coordination with backend or firmware department to connect functionalities.
- Maintenance of code and support for new features.

##### Used technology:

- Frontend: TypeScript | NextJs | Tailwind
- Backend: NodeJs | ExpressJs
- Testing: Jest | Cypress

08/2022

#### FreeForest

Development of a complete CRUD on a fictitious video game. Made as a group with four other developers. Scrum methodology was used together with Trello, Figma, AWS and Docker. My work was oriented to the Front-end and the end-to-end testing.

##### Used technology:

- Database: PostgreSQL | Sequelize;
- Backend: NodeJs | ExpressJs
- Frontend: ReactJs | Redux | Sass
- Testing: Jest | Cypress

##### DEMO

##### CODE
